ADOA Email Migration Project

On August 7th and 8th, the Department of Administration successfully migrated from GroupWise to Microsoft Exchange Server and Microsoft Outlook for its e-mail services.

This successful migration was the culmination of six months of hard work and dedicated effort by the Email Migration Team and every member of ADOA that helped prepare for the transition.

Over the course of the conversion weekend (60 hours) the team successfully migrated over 900 mailboxes from GroupWise to Outlook, which included over 5,179,097 items.

That translates to almost 10,000 pieces of email, calendar entries and contacts per person in ADOA. That is an extremely high number of items!

	Before	After	Reductions
Mailboxes	901	828	73
Accounts	901	545	356
Email items	7,372,000	5,260,000	2,112,000

Outlook Users	300	845	545 New Users
----------------------	-----	-----	----------------------

I would like to thank every member of ADOA for your efforts in preparing for the migration. This was a major step forward for our agency which is now in line with almost 90% of email users in AZ state government! Again, thank you! Our success is a direct result of your participation.

If you do have questions, please review the information available on http://azdoa.gov/outlook_migration/ or contact your Division Email Champion.
